Dear Resident,

Do you suffer from slow broadband speeds?
Are you tired of buffering?

Well it doesn't have to be this way!

Here at Airband we're on a mission to improve broadband connectivity for people in areas like yours. We recently submitted an application to DCMS (the Department for Culture Media and Sport) to build a **fibre-to-the-premises broadband network** in Bayston Hill – and the fantastic news is that this has now been approved! This means that if enough people in the community sign up, we will be able to start building the network early in the new year, and hopefully **start connecting customers as early as the Spring. The installation and router costs are covered** by the DCMS voucher that we arrange on behalf of everyone that places an order with Airband, and the more people sign up, the sooner we will be able to get started – so don't delay and order now!

We will be hosting drop in events outside the **Beeches pub on Friday 7th and Saturday 8th January** – where you are more than welcome to swing by and talk to any of our friendly sales people about this fantastic opportunity.

Please feel free to call, text or email one of us if you'd like to arrange a more convenient time to talk.

We look forward to seeing you soon,

Mark Trafford
HEAD OF SALES
