

What does being Carbon Neutral actually mean?

Achieving the balance between the carbon released into the atmosphere and the carbon taken out.

Carbon neutrality is a balanced seesaw and a key factor of tackling the current World Climate Emergency.

Key actions to be led by the Parish Council:

- Share the Parish Carbon Neutral action plan
- Provide regular updates on the status of being “Carbon Neutral by 2030”
- Provide useful links via the Parish Council website for residents and businesses

I am a resident of BH what can I do to make a difference?

Find out about my carbon footprint and how I can reduce it:

- Use the Food Hub, saving food going to landfill
- Choose a fuel-efficient vehicle and keep it well-maintained
- Use other means of transport to reduce emissions
- Replace incandescent light bulbs with LED bulbs
- Turn off electrical devices, appliances, and lights when not using them
- Turn the thermostat down a degree
- Improve insulation around the home
- Choose energy-efficient appliances

Support local events and groups that are committed to Carbon Neutrality
