

Carbon Neutral Working Party Proposal to Bayston Hill Parish Council

“Energy Audit”

1. It is proposed that Bayston Hill Parish Council completes an energy audit for all activities/locations that it has responsibility for.
2. This will enable opportunities to reduce energy used to be identified which will result in a reduction of the Parish Council Carbon Footprint.
3. It is proposed that this audit is undertaken during the second half of 2022 with completion no later than September 2022 in order that actions identified can be included in the budget for 2023/24.
4. An energy audit template has been identified that can be used to facilitate this audit. The link to this audit is below
https://1drv.ms/w/s!AkyHULHoFZi3j7Z5J26i_2iWdjCBRA?e=bGjTQa
5. It will be necessary to employ a competent electrician to assist with this audit. It may be possible that we have a resident that will meet this criteria, who might be prepared to offer their services FOC. If this is not possible then a budget of £500 is proposed to cover this cost.
6. This is a fundamental activity that needs to be completed in order for the Parish Council to achieve its target of being Carbon Neutral by 2030.
