## **Youth Strategy Survey**

**Survey for Organisations and Groups** 

September 2019

## **Background**

Shropshire Council is currently carrying out research and evidence gathering as part of a youth support consultation. There are three surveys being carried out as part of the consultation:

- 1) A stakeholder survey for local organisations with an interest in youth service provision.
- 2) A survey for children and young people to obtain their views
- 3) A public survey to gather the views of parents, grandparents, carers and other members of the public.

Shropshire Council is also making use of data and holding meetings to find out more and inform further decision making. In a time of austerity and public sector funding reductions, resources are limited so it is important to design an effective model of provision that meets the needs of those most in need of support.

Please take the time to fill in this survey. It should take approximately 15 minutes to complete depending on how much information you provide.
